Skills

- **Languages**: C++, JavaScript, C, Java, Python
- **Frameworks**: HTML and CSS, Bootstrap
- **Tools/Platforms**: MySQl, Excel, Power BI, Seaborn, Matplot, Sci-kit Learn, Pandas
- **Soft Skills**: Problem-Solving, Team Collaboration, Time Management, Adaptability

Projects

EasyInvoice Pro – Smart Billing & Management System | Link Jun'2025 - Jul'2025

- Built a complete end-to-end billing workflow to manage products, quantities, discounts, taxes, and final payable totals with high accuracy and consistency
- Designed a clean, responsive Java Swing interface that keeps billing fast, well-organized, visually structured, and easy to navigate for everyday business use
- Added a professional invoice output system enabling enterprise-grade automated processing and reliable print-ready bills for real-world business usage

Tech Used: Java, Swing, AWT, Java OOP, PDF/Print Utilities

FraudLens 360 – Transaction Fraud Intelligence Dashboard | Link Apr'2025 - May'2025

- Reviewed transactions to detect unusual activity, filter risky behaviour, and flag potential fraud signals using advanced analytics
- Explored transaction values, regions, months, categories, and devices to spot high-risk zones and recurring fraud patterns with data intelligence
- Summarized insights into a clear decision-ready dashboard highlighting trends, hotspots, and anomaly behaviour through visual reporting

Tech Used: Excel (Pivot Tables, Charts, Data Cleaning), Data Analysis & Visualization

PYDebug AI – Automated Code Debugging | Link Feb'2025 - Apr'2025

- Created an AI-powered tool to analyze Python code, automatically trace execution flow, and quickly detect logic flaws, runtime failures, and critical error issues in complex programs
- Examined logic flow, execution faults, and exception handling to precisely identify failure points and performance bottlenecks
- Recommended clearer, optimized code structures and best practices to resolve issues efficiently and improve overall reliability

Tech Used: Python, Gemini API, Debugging Workflow Design

Training

Java Maestro: GUI Development Training (Lovely Professional University) |Link Jun'2025 - Jul'2025

- Mastered core Java concepts including OOP principles, language keywords, memory handling, and essential program structures
- Practiced building responsive user interfaces using Swing and AWT layouts, components, and event-driven programming models
- Learned exception handling, date-time APIs, file systems, and database connectivity techniques for reliable CRUD operations)

Tech Used: Java, Swing, AWT, JDBC, OOP

Certificates

- Privacy and Security in Online Social Media (NPTEL) | Link Jul'2025 - Oct'2025
- Java Maestro: Hands-On Training on Developing GUI Applications(Lovely Professional University) | Link Jun'2025 - Jul'2025
- Java Programming on Iamneo Platform(Lovely Professional University) | Link Jan'2025 - May'2025
- Binary Blitz Hackathon(Coding Ninja LPU) | Link Mar'2024

Extra Curricular acitivity

Community Development Program – Asha Niketan, Asansol (West Bengal) | Link Jul'2024

- Volunteered at Asha Niketan to support children and adults with disabilities in daily learning, rehabilitation, and personal care activities
- Helped build an inclusive environment that encouraged confidence, social interaction, emotional stability, and long-term skill development
- Contributed to awareness initiatives promoting dignity, respect, accessibility, and equal participation for people with disabilities through community programs, outreach campaigns, and inclusive social engagement activities

Education

- **Lovely Professional University** Punjab, India
  Bachelor of Technology - Computer Science and Engineering; ***CGPA: 7.2*** *Since Aug'2023*
- **Narayana School** Asansol, West Bengal
  Intermediate; **Percentage: 73%** Mar'2022 - Mar'2023
- **Narayana School** Asansol, West Bengal
  Matriculation; **Percentage: 92%** Mar'2019 - Mar'2020
